

Quick Tip

How to Get Supplier Information Quicker

Single Pages:

All Sourcing City 'Search Result Pages' now have a 'Get Page' Button: which now enables you to get your 'Supplier Information' quicker. (See below visual)
 As you view a page of 'Product Search Results' you can now get all of the Supplier Information for all products on that page in one go. - You can then repeat this process on all of the other pages relating to your search results.

Multiple Pages:

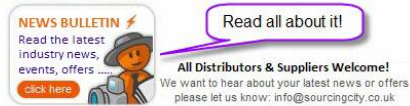

If you would like to 'get all of your Supplier Information' from 'Multiple Pages' in one go, simply tick the 'Get Supplier' Button against the products on each page as you go. This information will then be stored as you move through the pages. When you are ready, simply hit the 'Get Supplier' Button to view all of the 'Supplier Information' you were after.

The screenshot shows a search results page for 'mug'. At the top, there are filter options for Price Range, Express Delivery, Supplier Name, Shape, Colour, Supplier Region, Supplier Type, and Material. Below the filters, it says 'Search Results: 706 Products in 56 Item Types, 176 Supplier Options'. A 'Click Here' callout points to the 'Get Page' button in the navigation bar. Below the navigation bar, there are two product listings: 'HILLSIDE CERAMIC POTTERY MUG' and 'SANDFIELD MUG'. Each listing has a 'Get Supplier' button.
